

## Black Economics – Using Economics for Human Development

### Expression of Interest Form

I would like to be able to run the Black Economics course in communities across the country. In order to do so I need at least fifteen participants and to be able to find reasonably priced venues (so as not to increase the course cost too much). The course outline is set out below (this can be adjusted in response to student needs).

Session	Topics to be covered
1. Introduction	- Course overview - What is Economics about? - What is Money? It's creation, uses and abuses.
2. Getting in Financial shape pt 1	- Budgeting - Money Management - Debt reduction
3. Getting in financial shape pt 2	- Financial literacy - Creating multiple streams of income
4. Community Economic Development pt 1	- The Economic Production and Distribution cycle - The four legs of economic development
5. Community Economic Development pt 2	- The local multiplier effect - Plugging the leaks in the economic bucket - Areas for prioritisation - LETS schemes
6. Global Economics	- Why is Afrika rich whilst most Afrikans are poor? - IMF, World Bank, WTO, The Unholy Trinity
7. Planning for change	- Creating a Life Plan - Making a difference in your community

The basic cost of the course will £45 + VAT (my company is VAT registered). Venue costs will have to added to the course costs i.e. if I can find a free venue in your area then there will be no additional charge, however if for example the venue cost is £350 in total then if there are 15 participants then an extra £23 will have to be added to the course cost.

If you are seriously interest in attending this course please provide some basic details:
